

NCU + SRA

We're excited to announce our partnership with the Sacramento Running Association. Our partnership supports our commitment to the running community and a passion to offer the best in class for races in Northern California.

NCU and SRA are working to bring the road and trail communities together in new and exciting ways. This project will utilize the strengths of both organizations to enhance the experiences of all runners in our area.

**Our friends
at SRA
want you
to hit the
jackpot at
our premier
events.**

How does it work?

The goal of our partnership is to recognize the achievements of all participants from our winners to our final finishers. Runners at these three races, of all skill levels, will have various ways to earn cash prizes.
